

Committed To Ensuring The Patient's Wellness

Since our first beginnings, when we initiated what was then a new concept in per diem healthcare staffing, **Ultracare** has grown to become the premier agency in the greater New York area including all five Boroughs, Long Island, Yonkers and Northern New Jersey. Today, we continue to set the standard for the industry and are recognized both for the exceptional quality of our personnel and for their commitment to providing a consistently high level of patient care.

Among our clients, you'll find major hospitals and extended care facilities including those requiring specialized respiratory and pulmonary services. To meet these needs, and evolving health care demands, our RNs, LPNs, CNAs, PCT, RRTs and CRTTs all meet the currently established criteria of The Joint Commission*.

A Vision That Set An Industry Standard

Ultracare was founded in 1983 by Barbara Halsband, a Registered Critical Care Nurse with extensive credentials in the healthcare industry including positions as Assistant director of Nursing at College Hospital in Newark, New Jersey and Vice President of Continental Health Affiliates. Aware that there was no central source to which healthcare facilities could turn for per diem staffing, she established Ultracare, an agency where those seeking to hire accredited, quality professionals could call with confidence knowing the personnel could be relied upon for their expertise and skills.

The venture quickly became a success and in 1984 Barbara was joined by her husband, Mark Halsband, as co-owner of the agency. Mark is a licensed Respiratory Care Practitioner in New York, New Jersey and Florida and he established **Ultracare's** highly respected Respiratory Care division. Together, Barbara and Mark continue to raise the bar for the quality of their agency's services and are regarded throughout the industry not only for the excellence of their personnel but also for their pro-active response to emerging industry needs.

Request An Appointment

To inquire about **Ultracare** staffing services for your facility, please call 212. 883. 8877 for further information or to schedule an appointment. All members of our healthcare team meet currently established requirements of the Joint Commission and we are fully compliant with Equal Employment Opportunity Commission legislation.

Our Most Frequently Asked Questions

How much advance notice do you need to respond to our staffing requirements?

As much as is realistically possible. However, we know emergencies happen and we're prepared to work with you to the best of our ability to fulfill your needs. So even if it's a last minute situation, don't hesitate to call and we'll give you a prompt and realistic response.

Suppose we need to contact you outside your regular office hours?

No problem. You can reach us 24/7. Just call our main number (212 883 8877) and you'll be directly connected to a knowledgeable member of the **Ultracare** team who will be able to respond to your request for information in less than half an hour. And in many instances -immediately!

How can we be sure the personnel you send us have been properly screened?

Ultracare is recognized for the exceptional level of its personnel. All applicants must meet our stringent qualification criteria, which means their license, registration and certification are in full force throughout the period of engagement, and consistent with the current requirements of The Joint Commission. Documentation confirming such credentials will be forwarded for your review prior to the date the period of employment begins.

In addition, each **Ultracare** professional is either a citizen of the United States or in compliance with the Immigration Reform and Control Act of 1986. Where appropriate, related insurance coverage will also be included. Our standards are so highly regarded within the industry that Ultracare credentials on a candidate's application are viewed as an immediate verification of their capabilities.

What is your policy in the event of a strike?

Should a potential strike environment arise, our personnel will continue to work and provide services at the current rate of engagement.

How will we interface with you for on-site orientation requirements?

We will collaborate with your personnel to coordinate requirements for members of the **Ultracare** team unfamiliar with your facility.
